### IEM LED Constant Current Power Supply Options

Item	Model #	Power
1	LDP-075R054	75W
2	LDP-105R054	105W
3	LDP-150R054	150W
4	LDP-200R054	200W
5	LDP-240R054	240W
6	LDP-320R041	320W

### Competitive Advantage

- 1 Built-in 3 in 1 dimming function
  - 2 Voltage Surge protection: 8KV: Meets 4kV surge immunity level (IEC61000-4-5)
  - 3 IP67 design for indoor or outdoor installations.
- All power supplies have a 5 year warranty
  - All power supplies are UL and CE certified and RoHS compliant
  - All power supplies have user remote control Dimming capability option
  - All power supplies have Short Circuit, Over voltage protection and Over temperature protection
  - All power supplies have Safety standards for UL8750/CE/CCC/CB/CUL/KC/PSE/SAA
  - All power supplies have temp range from -40C to 60C
  - All power supplies meets IP67 Specifications, housed in aluminum packages
  - All power supplies have Input Voltage range of 90Vac to 305Vac
  - All power supplies have PFC (power factor correction) feature

**"A Solutions Company"**

**ISO 9001:2008 certified**

**It has been our goal since opening the doors back in 1997 to *"not just be your average supplier"*. We are in a unique position and can augment and support your current supply chain with light manufacturing/sub-assembly and VAR (Value Added Reseller) services. We can procure any specific components for your product requirements providing a solution to a need or problem.**

### Interconnect Solutions

- Power Cords and Plugs(U.S. & International)
- Custom cable assemblies and harnesses
- Connectors

### Power Solutions

- Wall mount adaptor
- Desktop Adaptors
- Batteries/Battery Packs

### ODM Electrical Design Services for Lighting

### Assembly and manufacturing services available

IEM has a number of electrical design service companies (ODM's) that we have worked with over the years. We can help you match the lighting fixture requirements to the various LED power suppliers available to give you the most economical solutions for your customers. We can also use our manufacturing services to connect your power supply to your light fixtures and to the AC power regardless of country where they will be used. We can also ensure that your solution meets the various government regulations needed to guarantee no import issues.
